EZIOFOR FRANKLYN OKECHUKWU

+234-814-539-4629 franklyneziofor2020@gmail.com Awka, Anambra State.

PROFESSIONAL SUMMARY

BSc Physics Education graduate with hands-on experience in solar PV systems, inverters, CCTV, and vehicle tracking solutions. Strong analytical and problem-solving skills from physics training, combined with practical technical implementation. Passionate about applying scientific principles to coding, web development, software solutions, and renewable energy technologies. Seeking opportunities in web development, programming, renewable energy tech, or related innovative roles.

SKILLS

Problem Solving Analytical Reasoning Team Management Records Management

Expertise in the Use of MS Office Tools Time Management Solar PV System Design

Web Development Fundamentals (HTML, CSS, JavaScript)

EDUCATION

BACHELOR OF SCIENCE (BSc.)

NNAMDI AZIKIWE UNIVERSITY, AWKA. December 2023.

Thesis: 'Liability in Medical Practice: A Review of Medical Malpractice and Negligence Claims.'

EXPERIENCE

SOLAR INSTALLATION TECHNICIAN

BENIGLE TECHNOLOGIES. January 2025-December 2025.

- Assessed sites for solar PV, CCTV, and vehicle tracking installations, evaluating structure, sunlight, and electrical setup for optimal system design.
- Installed and mounted solar panels, racking, inverters, batteries, CCTV cameras, and GPS trackers; handled wiring, grounding, and grid integration per safety codes.
- Configured and commissioned CCTV systems and vehicle trackers, including network setup, remote monitoring, and connectivity troubleshooting.
- Tested, maintained, and repaired solar, CCTV, and tracking systems; diagnosed issues, optimized performance, and trained clients on operation and maintenance.

SUBSTITUTE PHYSICS TEACHER

DIVINE MODEL SECONDARY SCHOOL, NDIORA. May 2022-July 2022.

- Delivered pre-planned physics lessons, ensuring continuity in mechanics, electricity, waves, and thermodynamics while maintaining student engagement.
- Supported students with physics concepts, problem-solving, and lab supervision, clarifying instructions and reinforcing scientific principles.
- Managed classroom of 25–35 students, enforced rules, handled behavior, and promoted a safe, respectful learning environment.

LEADERSHIP AND VOLUNTEERING EXPERIENCE
