Awka, Anambra State.

PROFESSIONAL SUMMARY

BSc Physics graduate and passionate Frontend Web Developer with strong analytical foundations and practical experience building responsive, user-friendly web applications. Proficient in HTML, CSS and JavaScript. One year of hands-on technical experience in solar installations adds real-world problem-solving and system integration skills. Seeking Junior Frontend Developer, Web Developer, or IT Support roles with growth opportunities.

SKILLS

HTML, CSS, JavaScript

Responsive Web Design

Problem Solving & Debugging Data Visualization & Analysis Technical Troubleshooting

User Interface Implementation

EDUCATION

BACHELOR OF SCIENCE (BSc.)

NNAMDI AZIKIWE UNIVERSITY, AWKA. December 2023.

Thesis: 'The Effects of Technologically-Advanced Learning in Physics Education'

PROJECTS

- **Trading Journal Application** — Built a responsive web platform for tracking trades with clean UI/UX design.
- **Weather Forecast Application** — Developed a real-time weather dashboard using modern web technologies.
- **Photography Portfolio Site** — Created a visually engaging, responsive website for photography display.
- **Multiple Landing Pages** — Designed and implemented responsive landing pages focused on performance and user experience (Built more than 5 mock projects demonstrating clean code, responsiveness, and modern design principles).

PROFESSIONAL EXPERIENCE

SOLAR INSTALLATION TECHNICIAN

BENIGLE TECHNOLOGIES. January 2025-December 2025.

- Assessed sites for solar PV, CCTV, and vehicle tracking installations, evaluating structure, sunlight, and electrical setup for optimal system design.
- Installed and mounted solar panels, racking, inverters, batteries, CCTV cameras, and GPS trackers; handled wiring, grounding, and grid integration per safety codes.
- Configured and commissioned CCTV systems and vehicle trackers, including network setup, remote monitoring, and connectivity troubleshooting.
- Tested, maintained, and repaired solar, CCTV, and tracking systems; diagnosed issues, optimized performance, and trained clients on operation and maintenance.

SUBSTITUTE PHYSICS TEACHER

DIVINE MODEL SECONDARY SCHOOL, NDIORA. May 2022-July 2022.

- Delivered pre-planned physics lessons to classes, ensuring continuity in mechanics, electricity, waves, and thermodynamics while maintaining student engagement.
- Supported students with physics concepts, problem-solving, and lab supervision, clarifying instructions and reinforcing scientific principles.
- Managed classroom of 25–35 students, enforced rules, handled behavior, and promoted a safe, respectful learning environment.

LEADERSHIP AND VOLUNTEERING EXPERIENCE

SURVEY DATA PROCESSOR & ANALYST

NYSC ORIENTATION CAMP, AWGU. January 2025 - February 2025.

- Collaborated with team to collect questionnaire responses from corps members on orientation camp, post-camp, and post-NYSC service experiences.
- Processed and analyzed survey data, categorizing and arranging responses by themes, patterns, and key answers for accurate interpretation.
- Performed data cleaning, summarization, and statistical breakdowns to derive meaningful insights from quantitative and qualitative feedback.
- Created visual representations including charts, graphs, and pictograms to clearly communicate findings, trends, and recommendations in reports.
